and integrity since 1938

Night Responder™ EFL-1

SPECIFICATIONS

- One SHO fixture - 1,000W metal halide lamp
- Fixture storage on base
- Light adjusts in all directions without tools
- Maximum adjustable height to 10 ft.
- Heavy-duty ball bearing wheels
- Pneumatic tires

VALUE-ADDED FEATURES

Durable SHO parallel lamp fixture provides up to 50 percent more lumens than competitive models

Insulated lamp tip support isolates lamp from damaging vibration, extending average lamp life up to 12,000 hours

Plated inner tower section for added durability and appearance

Compact design for ease of storage and transport

Powered from a standard 120V 15A outlet, the Allmand SHO parallel lamp fixture with its 1,000-watt metal halide lamp, illuminates five times more area than a conventional 1,000 watt quartz light.

Pneumatic tires and wheels feature heavy-duty ball bearings for long life and easy positioning.

Protective aluminum tread plate enhances appearance

Frosted lens diffuses light to comfortably reduce glare without compromising light quality

Light stand disassembles without tools into three easy to handle pieces for transport

EFL-1 LIGHT STANDS

EFL-1 light stands provide increased scene safety and productivity for a wide range of applications.

EFL-1 light stands are warranted free from defects in material and workmanship for one year.
